

2014-1 Student Representative Application

- 1. Name : Musi Endoh Nadine**
- 2. Current Semester : 2 Semester**
- 3. Nationality :Cameroonian**
- 4. Department : NGO**

5. Motivation and plan

Leadership to me is a kind of philosophy that comes with a lot of determination. I have set a bar for myself to go over the bar. It is in my ability to promote education for sustainability wherein I am able to express myself educationally and socially so it not only a motivation for me seeing others do what I can do but to be involved in it and do it even better. I think I am totally for the things that generate a kind of atmosphere that enlightens youths especially perusing a dimension of equal rights and respect, I cannot promise to do everything that is required of me but I can safely say that I will try in my possible best to learn and act in accordance with the school officials and students of course I promise to be of good behavior and obviously work harder to improve my educational standards and also gain more leadership skills if I am given this opportunity as NGO student representative.

Thank you
