

2014-1 Student Representative Application

1. Name : Gopal Bahadur Bohara

2. Semester : 3rd

3. Nationality : Nepali

4. Department : IDC

5. Motivation and plan

Dear sir/Medam

Greeting.

I believe that the friendship with the class mates and good relationship with the professors and administrative personals will be the property of my life which will be achieved by action as student representative. My past experiences such as class leader, school student in charge, representative in the student Union, member of clubs, NGOs and INGOs; and most of the students of GSIS inspire me to take the student representative responsibility in this time. I am myself confident that I have achieved the given preferable criteria i.e. third semester, strong leadership experiences, good GPA, basic Korean language and living in front of Ajou Plaza.

By minimizing the gap between students' expectation for coming to Korea for higher study and the reality during the study time, the advance reasoning student centered teaching learning process, more creativity and innovation in the students' presentation, the practical extracurricular activities even the collaboration with Nubi club, etc. can make the academic environment more effective.

I would like to make the commitment that I will continuously invest my effort to make the effective academic environment in IDC department with the good collaboration among students, TAs, professors, GSIS, and Ajou NUBI club.

Sincerely

Gopal
